

ASC Group (ASC) holds a prime ID/IQ contract under the U.S. Navy's SEAPORT Enhanced (Seaport-e) Multiple Award Contract (MAC).

Seaport-e is for Engineering, Financial, and Program Support under three geographic zones:

- Zone 2 – National Capital
- Zone 4 – Gulf Coast Zone
- Zone 6 – Southwest

SeaPort Enhanced (SeaPort-e) allows for the electronic procurement of Engineering, Financial, and Program Management support services. The Navy Virtual SYSCOM (VS) Commanders (NAVAIR, NAVSEA, NAVSUP and SPAWAR) has adopted an integrated approach to contracting for support services. Seaport-e falls under the Additionally, the U.S. Marine Corps can place orders under the Seaport contract.

Contract Number: N00178-07-D-4970

Award Date: May 23, 2007

Task Orders and Instructions

Awards of task orders under the SeaPort-e contract are pending.

ASC Group's Quality Assurance Program ASC uses its own quality management tool, SeeSOR™, in measuring performance of deliverables from our own contracts (ironically, many of which include purchase of SeeSOR for managing quality of our customers own contracts). ASC's background in Industrial Engineering/Quality, including years of experience teaching Quality Management to USN QAE's (now Performance Assessors) position us to provide detailed feedback of our internal Quality Control efforts directly to Customers using perhaps the most sophisticated quality management tool on the market.

In addition to internal quality measurement and feedback, ASC also relies on evaluation by our customers. For example, in 2005 ASC Group was approved as a GSA Supplier. Our proposal required the submission of a "Past Performance Evaluation" completed by 9 of our customers. This report was prepared by "Open Ratings," a DUNS company. Respondents rewarded ASC an overall 97 (out of 100), putting ASC in the top 20% of all companies evaluated.

Survey Details are as follows:

- 99 on Reliability
- 95 on Cost

- 96 on Order Accuracy
- 98 on Delivery/Timeliness
- 96 on Quality
- 98 on Business Relations
- 100 on Personnel
- 98 on Customer Support
- 99 on Responsiveness

Approach to guarantee responsiveness to and cooperation with customers

As identified in the DUNS customer survey from above, ASC's ratings for responsiveness and cooperation (i.e., Business Relations) were:

- 99 on Responsiveness
- 98 on Business Relations

ASC achieves these high ratings through a philosophy of personnel designation, and thus dedication, to projects. An ASC Co-founder is designated "Lead" on each project. The Lead not only manages the effort of any ASC personnel assigned to the project, but also executes a significant portion of the project, providing not only the experience and expertise, but also direct exposure to customer issues and needs.
